

MOPAR TRAILER TOW WIRING HARNESSSES

This 7-way harness connects directly to the vehicle wiring harness and has provisions for:

- * Taillamps
- * Brake and Turn Signal Lamps
- * Ground
- * Trailer Brakes
- * Battery Voltage
- * Backup Lamps

In addition, these trailer tow harnesses contain a relay to protect the headlamp switch from overloads often seen with HD trailers. For Ram Truck, relays are not required since these circuits are isolated from the headlamp switch.
