

# MOPAR TRAILER TOW WIRING HARNESSSES

These 7-way harnesses connect directly to the vehicle wiring harness and have provisions for:

- \* Taillamps
- \* Brake and Turn Signal Lamps
- \* Backup Lamps
- \* Trailer Brakes
- \* Battery Voltage
- \* Ground

In addition, these trailer tow harnesses contain a relay to protect the headlamp switch from overloads often seen with HD trailers. For Ram Truck, relays are not required since these circuits are isolated from the headlamp switch.
