

2014 PROMASTER FUEL TANK FILLER PIPE LOCATION ATTACHMENT

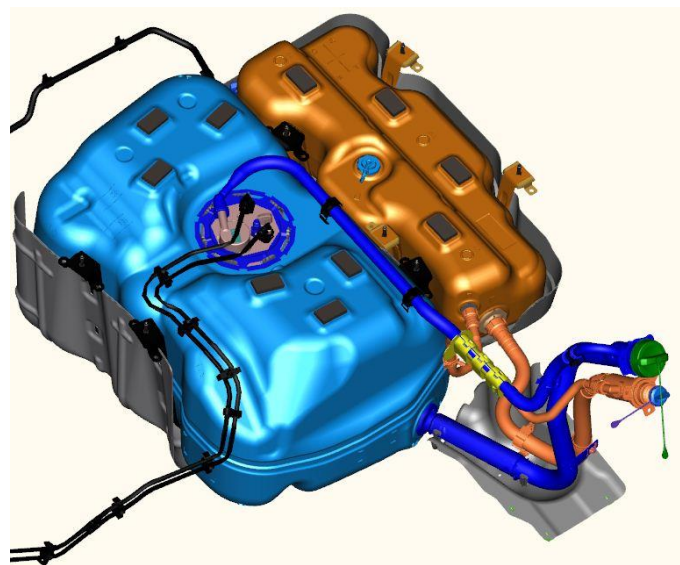

The Ram Promaster fuel filler system is completely integrated into the cab of the vehicle on VAN, Chassis cab and Cutaway vehicles.

In order to avoid FMVSS 301 compliance concerns, Chrysler LLC does not recommend any modifications to fuel filler system.

3.6L Gas with vapor canister

3.0L Diesel with DEF tank

2014 PROMASTER FUEL TANK FILLER PIPE LOCATION ATTACHMENT

Auxiliary Fuel Port

The Ram Promaster includes an auxiliary fuel port on the fuel sending unit to allow fuel supply to an auxiliary engine or fuel fired heater. It is shown on the picture below.
