Trailer Hitch Parts List

Below are listed the parts that attach to the new Ram 3500 models equipped with the fifth wheel/gooseneck prep package (sales code AHU)

Fifth Wheel

- Fifth Wheel Installation Kit (Part Number: 82213667) consists of a bracket to adapt from common Fifth Wheel hitches to production mounting points on the truck and includes the captured quarter turn tie-downs that mate to the under bed mounting brackets. It is a rectangular tube steel frame with multiple mounting points for commonly available fifth wheel hitches. The purpose is to allow the customer to adapt a fifth wheel hitch that they already have to the factory installed gooseneck/fifth wheel prep kit. **Note: this kit is required to adapt to the fifth wheel kits below.**
- 25,000 Fifth Wheel with Fixed Legs (Part Number: 82213821)
- Fixed Legs for 20,000 Fifth Wheel (Part Number: 82213824)
- Roller for 20,000 Fifth Wheel (Part Number: 82213823)
- 20,000 Fifth Wheel (Part Number: 82213822) **Requires one of the legs above.**

Goose Neck
